

Sydney Training Invitation

dataTaker
Data Acquisition & Data Logging Systems

Lontek

Training Workshop

Datataker, Lontek and Colterlec would like to invite you and your colleagues to a dataTaker Training Workshop.

The Workshop will focus on data acquisition and data logging, guidelines for optimising data acquisition systems and demonstrations. Participants will also have an opportunity to ask questions and take part in practical sessions.

All sessions allow for discussion of user specific application issues.

Who should attend?

- Users wanting to understand the fundamentals of data acquisition and data logging
- Users wanting to optimise their dataTaker data logger
- Employees responsible for data acquisition and data logging equipment
- Potential users of dataTaker data logger

**Closing Registration Date
9th October 2009**
